

VISION

To be the leading organization that provides scholarships to accounting students in the state of Florida.

MISSION

Provide scholarships to accounting students in the state of Florida.

VALUES

We value:

- Providing Foundation scholarships annually to fourth and fifth year accounting majors enrolled in Florida colleges and universities. The Foundation has distributed more than \$3 million to colleges and accounting students in the state of Florida. The Foundation scholarships assist students to pursue their degrees at any college or university in the state with an accredited accounting program.
- The future of the certified public accounting profession is vitally important. The financial burden of a college education can be a deterrent to attainment of a five year degree required for licensure. The Foundation provides scholarships to help offset the ever-increasing educational costs for accounting students at Florida's colleges and universities.
- Developing the future leaders of the accounting profession to excel not only in professional roles but to serve as leaders in the community and to serve others.
- Providing opportunities for CPAs and accounting professionals to engage and support the Foundation's scholarship programs and be an active participant in the process.
- Addressing the value of diversity within accounting programs by providing scholarships directed to that objective.
